#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 28. The system of claim 16 27, wherein the transaction interface is configured to determine whether the synchronous request may be handled asynchronously by determining whether the synchronous request is from the first requesting entity and determining whether the request is for a restricted unique identifier contained in the restricted names table.

Claim 29. The system of claim 16 27, wherein the transaction interface is configured to determine whether the synchronous request may be handled asynchronously by determining whether the synchronous request is from the first requesting entity.

#### ***Allowable Subject Matter***

2. Claims 1-30 are allowed.

3. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the added limitations to the claimed subject matter – a request for the synchronous operation to create an object that requires an identifier that is unique within a namespace identified by a catalog server, and determining whether that unique identifier conflicts with a name in a name table – is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
